

JAMES F. KEPPEL FOUNDATION

The generous outpouring of support and love stemming from Jim's death resulted in the establishment of the James F. Keppel Foundation. The foundation intends to provide scholarships each year to bright, deserving students at home and around the world who otherwise would not have the opportunity to continue their education.

The goal: to share the same educational opportunity that he received, with young students, some of them in the most desperate of situations... in the most desperate of places.

The hope: that these young graduates will become leaders in their own countries. In this way, Jim will have achieved his goal of making a real difference in the world... *one individual at a time.*
